

JEWELRY CLASSES
CHAINMAILLE – BEGINNER COURSE

Which designs are included in the beginner course?

Double Ring Design (6 workshop hours)

This is a wonderful first design perfect for introducing the techniques and tools involved in creating stunning chainmaille. In the beginner course, you will make a bracelet, earring and necklace set using this design.

Shaggy Design (6 workshop hours)

This design is one step above in difficulty from the double ring design. It is a very lightweight and fun design for everyday wear. In the beginner course you will make a bracelet, earring and necklace set using this design.

What is included in the price?

We provide all of the tools and materials needed to create exquisite jewelry sets that you can wear with pride. Included in the course fee are a full set of jewelry pliers and a jump ring opener (all of which are provided for your use during the course) AND all copper/sterling silver clasps (for bracelets and necklaces), surgical steel/sterling silver ear posts (for earrings) and all copper/sterling silver jump rings required for each chainmaille design.

What are the payment options?

You have the option of enrolling for the entire beginner chainmaille course, which includes two full sets of jewelry, for individual designs, or for individual pieces within the course. We recommend beginning with the double ring design as each chainmaille design builds on the skills learned in the previous design; however this is merely a recommendation and not a requirement to learn any of the designs listed in any of the courses.

What are the prices for full courses and for individual designs?

You have two options with each design – either copper or sterling silver. Below you will find the prices and payment breakdown for each design in each medium. All prices are in Euros.

JEWELRY CLASSES
CHAINMAILLE – INTERMEDIATE COURSE

Which designs are included in the beginner course?

Byzantine Design (10 workshop hours)

This is an amazing and intricate design once used in armour style chainmaille, now used as an elegant and substantial piece of jewelry for special occasions. In the intermediate course, you will make a bracelet, earring and necklace set using this design.

Peruvain Design (7 workshop hours)

This design is one step above in difficulty from the byzantine design. It uses the Byzantine technique with an added link section, making this design a more solid and fluid piece of jewelry, not to be worn lightly! In the intermediate course you will make a bracelet and necklace set using this design; earrings are a bit too heavy for the average ear but can be made upon request for those who can handle the weight.

What is included in the price?

We provide all of the tools and materials needed to create exquisite jewelry sets that you can wear with pride. Included in the course fee are a full set of jewelry pliers and a jump ring opener (all of which are provided for your use during the course) AND all copper/sterling silver clasps (for bracelets and necklaces), surgical steel/sterling silver ear posts (for earrings) and all copper/sterling silver jump rings required for each chainmaille design.

What are the payment options?

You have the option of enrolling for the entire intermediate chainmaille course, which includes two full sets of jewelry, for individual designs, or for individual pieces within the course. We recommend beginning with the byzantine design as each chainmaille design builds on the skills learned in the previous design; however this is merely a recommendation and not a requirement to learn any of the designs listed in any of the courses.

What are the prices for full courses and for individual designs?
